SKILLS

Software Development Skills

- HTML5 • CSS3 • JavaScript • Bootstrap4 • Responsive Designs
- Git and GitHub

Software Testing Skills

- Test cases creation and execution • Defect tracking and reporting
- System and user acceptance testing (UAT)

Graphic Design Skills

- Adobe Photoshop • Adobe Illustrator

Soft Skills

- Collaboration with team members • Attention to details
- Time management • Problem-solving • Adaptability • Creativity

Languages

- Arabic: Native
- English: B2 (Upper-Intermediate)

PROJECTS

HTML and CSS projects

1- CV project

- Developed a personal CV website with a clean, professional layout.
- Implemented responsive design to ensure accessibility on various devices.
- Source code: <https://github.com/neamatabdollah/CV-project>
- Website link: <https://neamatabdollah.github.io/CV-project/cv.html>

2- Login Page Project

- Created a visually attractive login page with a modern UI.
- Ensure cross-browser compatibility and responsive behavior.
- Source code: <https://github.com/neamatabdollah/Login-Page-Project>
- Website link: <https://neamatabdollah.github.io/Login-Page-Project/>

HTML, CSS and JavaScript projects

1- Calculator

- Built a functional calculator with basic arithmetic operations.
- Used buttons and JavaScript to make it interactive.
- Source code: <https://github.com/neamatabdollah/Calculator>
- Website link: <https://neamatabdollah.github.io/Calculator/calc.html>

2- Coin Game

- Created a fun game where the player chooses heads or tails coin, then by using JavaScript the player randomly wins or loses.
- Used Local-Storage every time to store the result.
- Source code: <https://github.com/neamatabdollah/Coin-Game>
- Website link: <https://neamatabdollah.github.io/Coin-Game/coin.html>

3- Train Station Counter

- Built a counter to keep track of how many people enter the train station.
- Used JavaScript to update the number on the screen in real-time and to save the previous numbers.
- Source code: <https://github.com/neamatabdollah/Train-Station-Counter>
- Website link: <https://neamatabdollah.github.io/Train-Station-Counter/counter.html>

4- Rock Paper Scissors Game

- Made a classic game where the player plays against the computer.
- The game shows the winner and updates the score after each round.
- Source code: <https://github.com/neamatabdollah/Rock-Paper-Scissors-Game>

- Website link: <https://neamatabdollah.github.io/Rock-Paper-Scissors-Game/>

5- *Todo List*

- Developed a list where users can Add or Delete tasks.
- Used JavaScript to save tasks so they don't disappear after refreshing the page.
- Source code: <https://github.com/neamatabdollah/ToDo-List>
- Website link: <https://neamatabdollah.github.io/ToDo-List/todo.html>

6- *ColArt E-commerce website (in-progress).*

- Created a small online e-commerce website where users can see products and add them to cart.
- Used JavaScript to update the cart and total price automatically.
- Ensured a responsive design for optimal user experience across devices.
- Source code: https://github.com/neamatabdollah/ColArt_e-Commerce
- Website link: https://neamatabdollah.github.io/ColArt_e-Commerce/
